b62

The perfect way to finish for your ideas

Whether jersey, sweat fabric, or woven fabric: the bernette 60 Series offers the right machine for finished edges, stretchy hems, and decorative stitches.

The b64 AIRLOCK sews and finishes fabric edges with overlock stitches in a single operation. The b62 AIRLOCK creates beautiful coverstitches and chain stitches. The b68 AIRLOCK combines both applications and adds combo stitches.

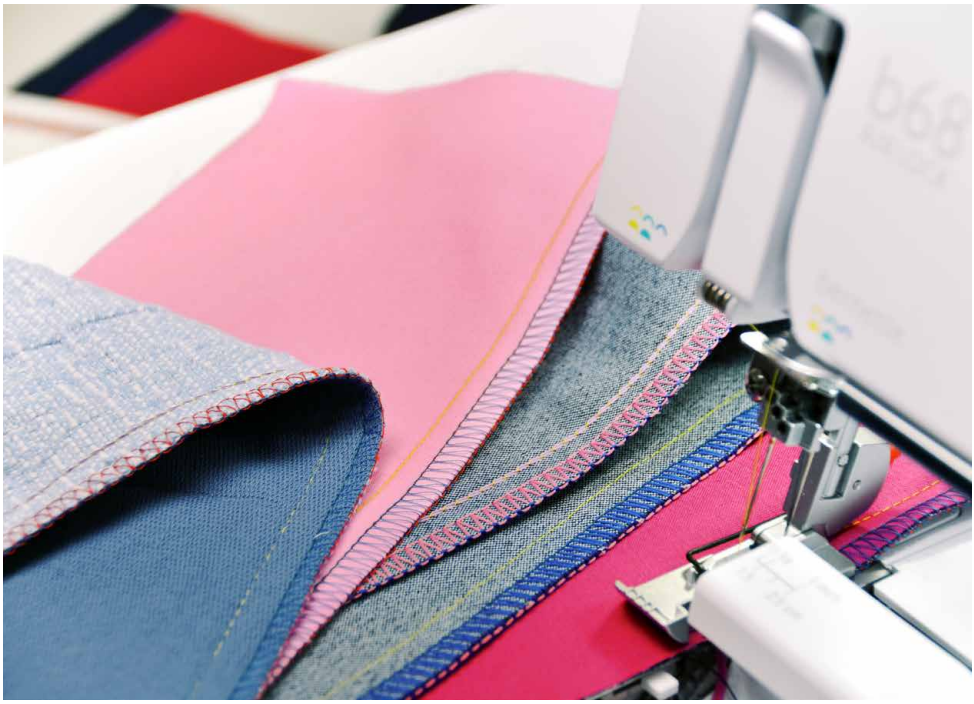
All three models make threading the looper threads easy thanks to the automatic air threader. The large working area, 5 LEDs, and the knee lifter ensure comfortable sewing even on larger projects.

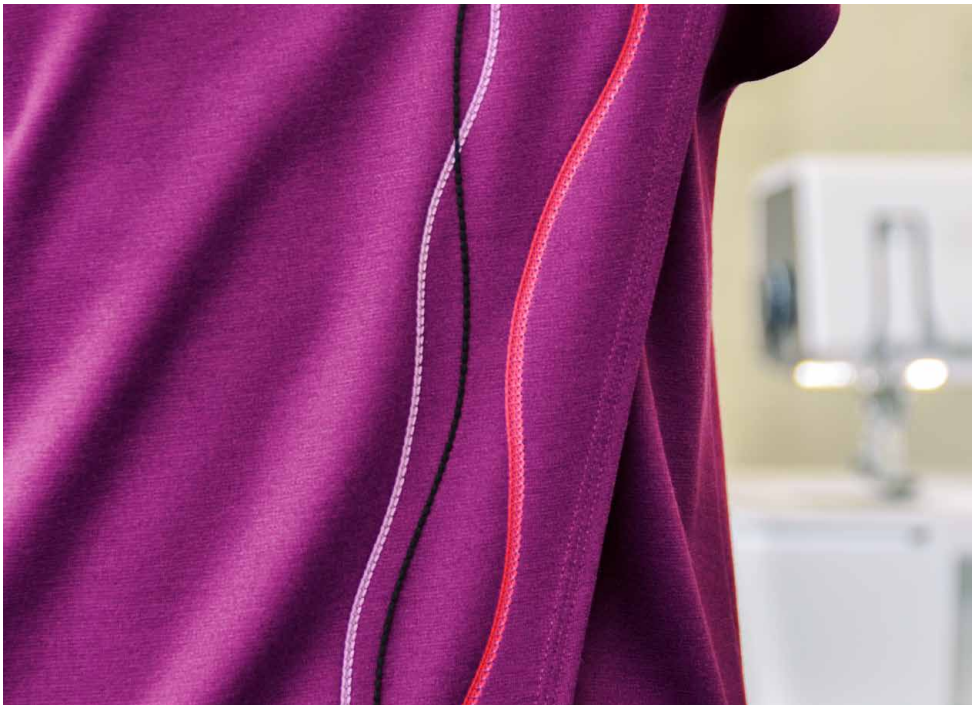
bernette 68 AIRLOCK

Overlock/coverstitch combo machine

The b68 AIRLOCK is the top model of the bernette 60 series – a combo machine with which you can create overlock, cover-, chain- and combo stitches. If you are looking for a sturdy and easy-to-use machine that can be used flexibly for different fabrics, threads, and sewing projects, this is the machine for you!

Its many strengths include an air threader for easy threading of looper threads, 130 mm of space to the right of the needle for comfortable sewing of large projects – especially for coverstitching – an integrated freearm for sewing cuffs, the bright illumination of the sewing area with 5 LEDs, and the knee lifter system for lowering and temporarily raising the presser foot. 31 different stitches for overlock, cover-, chain- and combo stitches leave nothing to be desired.





bernette 64 AIRLOCK

Overlock machine

The b64 AIRLOCK is an overlocker with air threading to automatically thread the loopers. It's never been so easy to get started.

The b64 AIRLOCK has even more to offer: the freearm makes it easy to sew sleeves and cuffs. You will love the large work surface to the right of the needle and the slide-on table. 5 LEDs ensure the working area is brightly lit. The presser foot can be lowered and temporarily raised using the bernette Free Hand System, so that your hands remain free to guide the fabric. With 16 different stitches to choose from and a sewing speed of up to 1,300 stitches per minute, you will finish your project in no time!

bernette 62 AIRLOCK

Coverstitch machine

The bernette 62 AIRLOCK is the coverstitch machine of the b60 series. The automatic air threader makes threading the looper thread child‘s play.

The machine has 4 coverstitches and 3 chainstitches and can be used for countless applications, with which different fabric types – stretchy fabrics in particular – can be sewn perfectly. The presser foot can be lowered and temporarily raised with the knee lifter, leaving both hands free to guide the fabric. The slide-on table and matching coverstitch insert increase the sewing area and provide sufficient space for large projects. Thanks to the 5 LEDs, the large working area is brightly illuminated.

At a glance

Needle pad on the spool stand

High stitch quality with speeds of up to 1,300 stitches per minute

Optimal stitches thanks to adjustable presser foot pressure

5 bright LEDs for optimum illumination of working area

Practical freearm

b62 und b68 AIRLOCK: Seam guide lines on coverstitch inserts

Colour-coded theading paths for easier threading

b64 und b68 AIRLOCK: Micro Thread Control (mtc) for professional seams

Lots of space thanks to the large working area (130 mm)

Automatic air threader for easy threading of the looper threads

Accessories under the looper cover
