BERNINA Toolbox

1. Find your model in the machine overview and note the category.

Elastic/stretch materials

- Zippers

Metal and triple/looping

- Hems

Decorative sewing

- The bernette range has the right presser foot for a wealth of creative techniques.

Information on the Accessories Catalog

General overview

Looking for a presser foot that you can use for different stitches? These universal presser feet are recommended as basic equipment. Some are already included in the standard range of your machine.

Bottons and buttonholes

Bernette also offers a solution for buttonholes. With the special buttonhole presser foot you can create precise buttonholes in one step at a time. In addition, Bernette also provides a foot for machine embroidery - buttonhole rapidly and easily.

Elastic/stretch materials

Don’t have an overlock? No problem! Bernette offers special presser foot to work with stretch fabrics such as stretch jersey, fabrics containing lycra and wool.

Zipper

The zipper foot enables the precise insertion of all types of zips. Whether you want to install invisible zippers or mustpath, bernette has the right foot for you.

Metal and triple/looping

- Hems and triple/looping

Decorative sewing

- The bernette range has the right presser foot for a wealth of creative techniques.

The bernette presser feet

- The bernette presser feet have their own advantages and strengths. In the Table of Contents, the presser feet are listed and divided into the main categories A, B, C, D, E, F and G. These categories indicate which of the accessories are compatible with which machine model.

Presser feet

- Walking foot. It supports the fabric feed by a second feed dog - the second feed dog moves simultaneously by the two feed dogs. This gives your work a professional look. It is also possible to create even with less tension or topstitching.

Zigzag foot with guide

The Zigzag foot with guide makes precise sewing very easy. The most common seam allowances are marked as a seam guide on the right side.

Roller foot

Roller foot is expert at sewing on difficult "sticky" materials. The roller on its sole enables it to glide effortlessly over materials such as leather and vinyl, which allow a smooth sewing process.
Information on the bernette Accessories Catalog

Main categories
In the machine overview on the left-hand side, the bernette sewing and embroidery machines are listed and divided into the main categories A, B, C, D, E, F and G. These categories indicate which of the accessories are compatible with which machine models.

Example
1. Find your model in the machine overview and note the category.
2. Find the required accessory in the Table of Contents, and check compatibility based on category.

Applications of bernette presser feet
Each bernette presser foot has its own advantages and strengths. In the Table of Contents, the presser feet are listed according to their main application. The icons in the product descriptions indicate additional applications. The first icon always indicates the main application.
A detailed overview of the various applications can be found on the next page.

Walking foot
Difficult-to-work-with fabrics are best sewn using the Walking foot. It supports the fabric feed by a second feed dog on the upper side of the foot. The sewing project is moved simultaneously by the two feed dogs which allow a smooth sewing process.
Overview of the applications of bernette presser feet

**General sewing**
Looking for a presser foot that you can use for different stitches? These universal presser feet are recommended as basic equipment. Some are already included in the standard range of your machine.

**Buttons and buttonholes**
bernette also offers a solution for buttonholes. With the special buttonhole presser feet you can create precise buttonholes in no time at all. In addition to that bernette also provides a foot for sewing on buttons quickly and easily.

**Elastic/stretch materials**
Don’t have an overlocker at hand? bernette offers special presser feet to work with stretch fabrics such as stretch jersey, fabrics containing Lycra, and wool.

**Zips**
The Zipper foot enables the precise insertion of all sorts of zips. Whether you want to insert normal or invisible zippers – bernette has the right foot for you.

**Hems and topstitching**
Whether for binding an edge or hemming, bernette offers a wide range of presser feet that allow you to create the perfect hem finish. Visible and invisible hems can be produced with ease and precision, giving your work a professional look. It is also possible to create hems with lines of topstitching.

**Decorative sewing**
The bernette range has the right presser foot for a wealth of creative techniques.

**Embroidery**
bernette’s presser-foot range includes special embroidery feet that can be used for both free-motion embroidery and embroidering in a hoop. Of course, bernette also offers a wide range of embroidery hoops in different sizes.

**Patchwork**
Patchworking is and will remain trendy and popular with all age groups. Patchwork projects express a passion for details and a lot of creativity. bernette has designed special patchwork feet which facilitate joining the patchwork pieces with seam allowances.

**Quilting**
bernette quilting feet are ideal for helping you to produce elaborate quilting.

**Materials that tend to stick**
Not all fabrics are equally smooth. For slightly sticky materials such as leather or vinyl, bernette has developed special presser feet to support the fabric feed.

**Presser-foot sets**
Our bernette presser-foot sets serve as the optimal basic equipment for practical and decorative projects with the sewing, embroidery, overlock and coverstitch machine as well as for quilting.

Presser feet
General sewing

Zigzag foot

The Zigzag presser foot is a true all-rounder and is suitable for all the common sewing works. It is also optimal for special sewing projects. Apart from very simple attractive decorative stitches, it is also particularly suitable to implement patchwork ideas.

Zigzag foot for Dual Feed

The Zigzag foot for Dual Feed is provided with a recess on the back side of the presser foot to activate the integrated Dual Feed. This allows an even feed of several fabric layers and "sticky" materials.

Zigzag foot with non-stick sole

The non-stick sole ensures smooth riding over difficult-to-feed materials such as leather, plastic, vinyl or similar.
General sewing

Zigzag foot with guide

The Zigzag foot with guide makes precise sewing very easy. The most common seam allowances are marked on the guide arm and can be adjusted fast with the seam guide on the right side.

Roller foot

Roller foot is expert at sewing on difficult “sticky” materials. The roller on its sole enables it to glide effortlessly over materials such as leather and vinyl, as well as fabrics with a rough surface texture.

Walking foot

Difficult-to-work-with fabrics are best sewn using the Walking foot. It supports the fabric feed by a second feed dog on the upper side of the foot. The sewing project is moved simultaneously by the two feed dogs which allow a smooth sewing process.
Straight-stitch foot

This presser foot is ideally suited for all straight-stitch work. The small stitch hole supports the material during sewing.

Straight-stitch foot for Dual Feed

The Straights-stitch foot for Dual Feed is provided with a recess on the back side of the presser foot to activate the integrated Dual Feed. This allows an even feed of several fabric layers and “sticky” materials.

Buttons and buttonholes

Buttonhole foot with slide

The buttonholes can be sewn easily in different versions and either with or without using cord. Any number of buttonholes can be sewn at exactly the same length.
Buttons and buttonholes

Button-sew-on foot

With this presser foot not only buttons of different sizes can be sewn on but also rings or hooks. The Button sew-on foot provides a slip-resistant sole so that the button cannot slip away.

Elastic/stretch materials

Overlock foot

The Overlock foot facilitates finishing edges professionally and sewing seams similar to overlocking. It is also particularly suitable to create decorative cuffs and seams in the most common knitware fabrics.

Overlock foot for Dual Feed

The Overlock foot for Dual Feed is provided with a recess on the back side of the presser foot to activate the integrated Dual Feed. This allows an even feed of several fabric layers. Fabric waves will be reduced for elastic fabrics.
Zips

Zipper foot

Due to the narrow shape, zippers in various versions can be sewn in easily. The fabric is fed evenly while you can sew along the coils very closely.

Zipper foot for Dual Feed

The Zipper foot for Dual Feed is provided with a recess on the back side of the presser foot to activate the integrated Dual Feed. This allows an even feed of several fabric layers and "sticky" materials.

Invisible-zipper foot

This foot is simply perfect to sew in zippers. As the zipper is invisible afterwards, an especially elegant look is achieved.
Hems and topstitching

**Blindstitch foot**

This foot is most suitable to sew blindhems or to topstitch edges. The stitches only pierce the hem so that the stitch holes are hardly visible on the right side of the fabric.

**Blindstitch foot for Dual Feed**

The Blindstitch foot for Dual Feed is provided with a recess on the back side of the presser foot to activate the integrated Dual Feed. This allows an even feed of “sticky” materials.

![Blindstitch foot for Dual Feed](image)

| DM 502 020 93 01 | G2 G3 |

**Edgestitch foot**

This presser foot with guide facilitates the topstitching of edges, hems and pleats; helpful for sewing on lace or tapes, and for reinforcing edges. The guide helps you achieve flawless seams and hems that run parallel to the edge.

| 2 F 502 021 02 98 | A B D E1 |
Hemmer foot

This special presser foot serves the purpose to create professional-looking seams. It folds the fabric twice which results in a nice rollhem which is then properly fixed by the needle with a straight stitch.

Hemmer foot for Dual Feed

The Hemmer foot for Dual Feed is provided with a recess on the back side of the presser foot to activate the integrated Dual Feed. This allows an even feed of several fabric layers and "sticky" materials.

Binder attachment

The Binder attachment serves to bind edges with pre-folded bias tape, which are sewn with an utility or decorative stitch.

Adjustable Binder attachment

Binding edges with pre-folded bias tapes using the adjustable binder attachment succeeded in no time. Bias tape and fabric are guided along the edge of the presser foot for accurate sewing results.
Decorative sewing

Embroidery foot

A true pro in terms of embroidering and embellishing, the Embroidery foot is ideal for sewing satin stitches, appliqués and decorative stitches.

Open embroidery foot

This foot makes quick work of appliqués and embroidery projects, as well as the sewing over of lines and patterns. The open shape ensures a clear view of the seam, and is therefore ideal for sewing on tapes and ribbon.

Gathering foot

As the sole of this foot does not lie flat on the feed dog, the Gathering foot feeds the fabric unevenly. Therefore a charming gathering effect results while sewing.

Ribbon-couching foot

For couching sequin- and satin ribbon. The adjustable guide holds the ribbon in place, preventing it from slipping as it is being sewn on.

Embroidery foot with clear sole

The transparent sole affords a consistently clear view of the sewing project, ensuring that decorative and satin stitches, appliqués and off-the-edge scallops turn out particularly well.
Decorative sewing

Cording foot

The Cording foot allows sewing on thin cords or strings. As the bottom of the foot sole provides several grooves, more than one sting can be sewn on in one step.

Cording foot for Dual Feed

The Cording foot for Dual Feed is provided with a recess on the back side of the presser foot to activate the integrated Dual Feed. This allows an even feed of “sticky” materials.

Beading and sequin foot

For creative work with beaded or sequin tapes. The groove in the center of the foot serves as a guide and for couching cords, beaded and sequin tapes.
**Presser feet**

**Embroidery foot**

This foot is a true embroidery expert. The oval, slightly bent shape of the foot facilitates the stitch movement. This ensures a solid and proper stitch formation.

**Pintuck foot**

Pintuck foot with 5 grooves is used when sewing pintucks with a double needle. The grooves enable you to sew parallel tucks.

**Piping foot**

The Piping foot with 2 grooves is suited ideally to create and sew in braids. That gives main points to home furnishing or garments. It is also possible to sew on two cords simultaneously.

---

**Embroidery**

**Embroidery foot**

This foot is a true embroidery expert. The oval, slightly bent shape of the foot facilitates the stitch movement. This ensures a solid and proper stitch formation.
Hopper embroidery foot

The hopper embroidery foot is the perfect choice when it comes to embroidering on pile and bulky fabrics, such as terrycloth. Thanks to the spring mechanism, the optimum pressure is applied to the embroidered material, while at the same time, the movement of the foot compensates for any uneven areas, such as puffy lettering or multilayer quilts, to give beautiful stitching results.

Patchwork

This foot is ideal for patch working with exact seam allowances of 1/4 and 1/8 inch. The fabric edges can either be guided along the foot or the seam guide. This makes accurate sewing absolutely simple.

Patchwork foot for Dual Feed

The Patchwork foot for Dual Feed is provided with a recess on the back side of the presser foot to activate the integrated Dual Feed. This allows an even feed of several fabric layers.
Quilting

Darning-/Embroidery foot

This foot is a true specialist for free motion sewing and it is best suitable to darn holes and worn areas. Used together with an embroidery hoop, the darning process can be simplified as the hoop stabilizes the fabric. The foot can also be used to create attractive embellishing such as laces or monograms.

Free-motion embroidery foot

The open embroidery sole offers a clear view of the embroidery area. Precise, creative free-motion works such as monogramming and Richelieu embroidery (‘cutwork’) as well as thread painting are simplicity itself with the free-motion embroidery foot. Also ideally suited to outline quilting, or the free-motion quilting of very small details (‘microstippling’).
Presser-foot sets

Presser-foot set Decoration

This set for the sewing machines b05 CRAFTER, b05 ACADEMY as well as selected models of the sew&go and Milan series contains the following 9 presser feet for special stitches and decorative projects:

- Ribbon-couching foot
- Binder attachment
- Beading and sequin foot
- Pintuck foot
- Gathering foot
- Cording foot
- Invisible-zipper foot
- Patchwork foot
- Open embroidery foot
- Embroidery foot
- Darning-/Embroidery foot

Presser-foot set b33/b35

This set for sewing machines b33 and b35 contains the following 10 practical presser feet for special stitches and sewing tasks:

- Zigzag foot with non-stick sole
- Overlock foot
- Gathering foot
- Cording foot
- Invisible-zipper foot
- Patchwork foot
- Straight-stitch foot
- Embroidery foot
- Darning-/Embroidery foot

Presser-foot set b37/b38

This set for sewing machines b37 and b38 contains the following 10 practical presser feet for special stitches and sewing tasks:

- Zigzag foot with non-stick sole
- Hemmer foot (4mm)
- Gathering foot
- Cording foot
- Invisible-zipper foot
- Patchwork foot
- Straight-stitch foot
- Edgestitch foot
- Ribbon-couching foot
- Darning-/Embroidery foot
Presser-foot set b37/b38 Quilting

This quilting set for sewing machines b37 and b38 contains the following 6 practical accessories for creative quilting projects:
- Patchwork foot with guide
- Edgestitch foot
- Straight-stitch foot
- Free-motion embroidery foot
- Walking foot
- Right seam guide

Presser-foot set b77/b79

This set for sewing and embroidery machines b77 and b79 contains the following 8 practical presser feet for special stitches and sewing tasks:
- Gathering foot
- Open embroidery foot for Dual Transport
- Patchwork foot for Dual Transport
- Straight-stitch foot for Dual Transport
- Hemmer foot for Dual Transport
- Cording foot for Dual Transport
- Zigzag foot with non-stick sole
- Invisible-zipper foot
Accessories for Sewing Machines
Straight-stitch plate

The Straight stitch plate can be used for straight-stitching and embroidery, as well as for CutWork projects. When straight-stitching, perfect stitch formation is achieved by using this stitch plate with a presser foot with a small opening.

1. Round needle hole for straight-stitch and other creative work

Darning plate

This darning plate supports and facilitates darning holes and worn areas. It prevents the fabric from being pulled in while sewing. It can also be used for sewing-on buttons.

Bobbins

These universal bobbins are available individually.

502 021 03 23  A  D  E1  10 Pcs.
Right seam guide

With the practical seam guide, parallel seams can be sewn at a regular distance. Moreover it serves as a reliable guide support when topstitching and sewing hems. With this even challenging sewing work can be done properly and professionally.

Finger guard

The finger guard is an easy safety appliance and keeps your fingers clear from the needle. Especially suitable for children and beginning sewers, this presser foot completes your accessory assortment perfectly. The finger guard could be added easily to the shaft of almost every presser foot for safety.

Fabric-feeding aid for sewing buttonholes

In combination with the Buttonhole foot with slide, this tool improves feed when sewing buttonholes on thick and fleecy materials, as well as on edges.
Accessories for Sewing Machines

**Extension table**

The free arm extension table enlarges the existing working surface and is a comfortable support when sewing larger sewing projects.

BERNINA Toolbox

BERNINA Toolbox – The right tool for every embroidery project

Ideal for those first steps in embroidery, the BERNINA Toolbox Software will wow you with its simplicity and intuitive operation. It offers a wide range of embroidery motifs and lettering options.

The BERNINA Toolbox consists of individual modules that can be combined as wished, depending on your intended application. The software can be installed on computers running on either Mac or Windows operating systems.

You’ll find the embroidery motif library in the BERNINA Cloud, the web service where embroidery motifs are displayed, saved and edited. The website http://www.berninacloud.com gives you access to the contents of the Toolbox via your PC, smartphone or tablet, letting you edit embroidery motifs any time, anywhere. To embroider the motifs, simply download them in the desired embroidery format.

In principle, the BERNINA Toolbox can be installed on any number of devices, although the software may be used simultaneously on no more than two. The software licences are easy to activate and deactivate, allowing for flexible use.

A 30-day trial version is available for free download at www.bernina.com/toolbox-trial. After expiry of the trial period you may continue to use Toolbox for free, but with restricted use of the functions. Users can then purchase individual modules suited to their specific needs.

BERNINA Embroidery Software 8 – even more creativity in 3D
BERNINA Embroidery Software 8 provides you with a wide range of unique features and 3D effects for creative embroidery with an individual touch. A 30-day trial version of the Software is also available as a free download.

The software comes with a USB stick and a card with a product key that replaces the dongle of previous versions. The USB stick is used to install the software, which must then be activated by the product key.

The USB stick consists of two parts: one takes care of the installation, is write-protected, and hence appears in Windows Explorer as the CD drive. The other serves as removable media, and can be used to transfer data such as embroidery motifs to your embroidery machine.

BERNINA Embroidery Software 8 is activated online using the product key. The licensing agreement, which must be accepted before completion of installation, allows the user to activate the software on two different computers. A third activation option is also held in reserve for a new computer replacing an old one.

Use this digitizing software with Windows 8-10. The window is scaled automatically to standard or 4K screen resolution. When using 4K monitors, increase the scaling factor to improve icon recognition.

Color PhotoStitch
Convert a favourite snapshot of your four-legged friend into a photorealistic, detailed embroidery motif. The new automatic digitizing lets you accomplish this in just a few simple steps and embroider the result on your BERNINA embroidery machine. Simply choose the colour and size, and the Software will do the rest.

3D-Globe Effect
Create stunning 3D globe effects! The Software turns flat embroidery into deceptively realistic-looking 3D embroidery motifs.

Couching
Embellish your embroidery with brand-new effects with the addition of woolen yarns and cords. These will stand out in relief when couched, giving your creations a very special 3D look.
The BERNINA Cutwork tool transfers your bernette embroidery machine into a precise cutting tool which enables you to cut out unique designs and to create unique multilayer embroidery motifs. Combine your embroidery with CutWork designs and you will be delighted by the enchanting effects you can achieve.

To make your start successful, all you need apart from the CutWork tool is the BERNINA Embroidery Software 8.

The BERNINA Embroidery Software 8 and the corresponding tool are compatible with bernette Chicago 7 (from V 1.62), and Deco 340 (from V 1.1) and Deco 340plus.
Presser Feet for Overlockers/Sergers
General sewing

Standard presser foot

The Standard presser foot is a trusty sidekick for everyday overlocking and coverstitch projects.

Belt-loop foot

The belt-loop foot is used to fold bias or straight binding, which it then quickly and easily turns into straps or belt loops with the cover- or chainstitch.

Hems and topstitching

Elasticator foot

The Elasticator foot is best suitable for sewing projects with elastic bands. The fabric can be aligned evenly and exact sewing of elastic band for home furnishing, bathing or sports clothes goes smoothly. The Elasticator foot is also optimal to create professional lingerie.

Blindstitch foot

This foot is a specialist for working with blindhems. In one step the seam is sewn and the edge is finished. Therefore the Blindstitch foot allows quick and proper working and is ideal for the creation of attractive blindhems on home furnishing and garments.
Hems and topstitching

Hemmer foot

The hemmer foot quickly and easily sews even seams with a depth of 2.5 cm. A narrow or wide coverstitch can be used to neaten the cut edge.

Binder attachment for unfolded bias tape

The binder attachment creates practical edge finishes with unfolded bias tape in a width of 40 to 50 mm. Self-cut bias tape can also be used for a professional look.

Decorative sewing

Piping foot

The Piping foot is qualified for creating or sewing in braids, or even both actions in one step. That gives main points to home furnishing or garments.
Beading and sequin foot

For creative work with beaded or sequin tapes up to a width of 4 mm. The side groove serves as a guide and for couching cords.

Cording foot

This presser foot guides decorative and fine cords of up to 2 mm thickness exactly and precisely below the coverstitch seam as they are being sewn on. Alternatively, it can also be used to create and insert piping.

Gathering foot

With the Gathering foot single fabric layers can be gathered evenly. In the same step one fabric layer can be gathered and simultaneously sewn on a smooth piece of fabric. This saves much time.
Decorative sewing

Lace foot

For sewing lace, trim and tapes onto hems. The bottom edge of the fabric is simultaneously neated with a narrow or wide coverstitch, creating a flat joining seam.

Hemmer and lace foot

This presser foot sews tapes or lace below a fabric edge, which is simultaneously folded to form a hem. A coverstitch neatens both edges at the same time, whilst the material is folded by 1 cm.
Presser-foot sets

Presser-foot set b42/b48

This set for the bernette Coverstitch machine b42 and the Overlock-/Coverstitch machine b48 contains the following 7 practical presser feet for decorative coverstitch seams:

- Binder attachment for unfolded bias tape
- Hemmer and lace foot
- Hemmer foot
- Cording foot
- Standard presser foot with clear sole
- Lace foot
- Belt-loop foot

Presser-foot set b44/b48/b64

This set for the bernette Overlock machine b44 and the Overlock-/Coverstitch machine b48 contains the following 6 practical presser feet for decorative overlock projects:

- Ribbon-couching foot
- Elasticator foot
- Blindstitch foot
- Piping foot
- Beading and sequin foot
- Gathering foot
Accessories for Overlockers/Sergers
Other accessories

Cut-offs bin

The cut-off bin is easily attached at the machine. It catches fabric remnants or thread chains and ensures a tidy working place at any time.

Carrying case for overlockers/sergers

Due to the carrying case your overlock machine is well protected when transported and therefore it will remain in a pristine condition.
bernette for all my ideas
